Space and Naval Warfare Systems Command Awards Contract

SAN DIEGO — Verestar/MTN, Fairfield, NJ is being awarded a \$1,760,472 indefinite-delivery/indefinite-quantity contract for commercial C-Band satellite space segment, earth station gateways, engineering and transmission planning services for U.S. Navy ships operating in the Atlantic Ocean, Pacific Ocean, and Mediterranean Sea. The contractor will provide premium non-preemptable satellite space segment global beam service on INTELSAT satellite 706 located at 307 degrees east; and, premium non-preemptable, protected satellite space segment service on the GE-1 satellite, transponder 24C located at 257 degrees east. The contractor will also provide satellite earth station gateway, engineering and transmission planning services. This contract includes a maximum quantity of 60 months of service which, if exercised would bring the cumulative value of this contract to \$36,577,440. Work will be performed in Fairfield, NJ (10 %), Holmdel, NJ (68%), and Steele Valley, CA (22%) and is expected to be completed by 14 October 2006. Contract funds in the amount of \$1,760,472 will expire at the end of the current fiscal year. This contract was not competitively procured. One proposal was solicited and one offer was received via the Space and Naval Warfare Systems Command E-commerce web site and via the Commerce Business Daily. The Space and Naval Warfare Systems Command, San Diego, CA, is the contracting activity (N00039-02-D-2300).
